A friend brought Jin Shin Jyutsu into Suzanne's awareness and amazing health benefits have been happening for her and her clients. Suzanne has been working as a Reflexologist for four years. After qualifying to practitioner level she continued her studies and added Maternity Reflexology, hands and ears, Chi reflexology and Metamorphosis to her tool kit. She now incorporates the self-healing JSJ practices into her own life and encourages her clients to use this powerful knowledge to empower themselves to good health.
